Sergio K.  
Pittsburgh, PA

Someone out there, some guy named Ben J. from Boston said in a Yelp review that "...nothing out there deserves 5 stars..." I beg to differ. Prime example is Roberta Weissburg Leather's and her lovely staff of customer support and leather technicians. These people are experts when it comes to handling, repairing or custom designing leather garments. They do it all; jackets, pants, furs...must I go on? We're super lucky to have 2 stores in the Pittsburgh area, one in Shadyside and one in the South Side Works. Personally, I love Emma's work, she's one of the leather specialists that I had the privilege of her working on my jackets. She's accurate, detailed and super timely on her deliveries. I know I can trust this place with my leather. Makes me almost not want to ever move! Remember people: You get what you pay for.

JANUARY 23 - FEBRUARY 13, 2012

Guess what? We can enter to win up to \$1,500 in Brighton pieces we've been dreaming about...
